

Photo	Name of Model:
	APHug Area(s) of Use:
	Person who developed the model/theory: (short bio with date, place & training.

Premise: (What is the model supposed to explain, and how or when would this model be used?)

Illustration: (**Draw & Label** the model, or use symbols to demonstrate the key ideas of the model) **Must be hand drawn.**

Strengths of this model (How does it help predict a geographic concept):

Weaknesses of this model (What does the model fail to show/predict?):

Effectiveness of the model for predicting geographic outcomes. Does it still apply today? (Remember we are still studying this model. There must be a reason) When or where might it apply and with what modifications?
